Packaging Technician

Department: ILP

Hours per week: 37.5

Basis: Permanent

Job Purpose

To inspect, label and pack the Company's products in accordance with GMP processes, ensuring right first time products whilst meeting customer delivery dates.

Key Responsibilities

- To inspect, label (either by hand or machine) and pack vials compliantly
- To complete appropriate documentation (e.g. batch records) to GMP standards
- To effectively communicate with internal and external customers / departments
- Be flexible and be able to work with different teams within the department

Knowledge, Experience & Skills Required

- Proficient user of Microsoft Office (Excel and Word)
- Excellent attention to detail
- Flexible and able to react to changing deadlines
- Experience working in a GMP environment would be beneficial but not essential

If you are interested in this role a job description is available on request.
